About us

We are Prosam Resources began this journey more than a decade ago from Mumbai, the beautiful coastal city.

We are a mechanical engineering team capable of carrying out maintenance and fabrication of any equipment falls under the conspicuous term "Pressure Vessels".

We have a strong engineering team under the guidance of highly seasoned engineering veterans those had served as directors and on senior most positions of refineries, petrochemical factories and fertilizer firms of India and abroad.

The execution team is young and verily act on fast mode, with cent percent indelible quality.

Our Vision

Ardent wish to grow better and higher across the globe & commit a part to the Society to wipe a few tears.

Our Mission

Every service should be commendable, sincere and tenacious on technical standards.

Our Foundation

Founded on pragmatism. Actively grow on the gifts of **Prosam** i.e Innovation and Courage

Team work

Moulds us to fetch our cherished goals.

Performance

Will augment our credibility.

HSE Policy

We are committed to maintain and ensure safety, health and clean environment for sustainable growth in all areas of our maintenance and fabrication activities.

Commitment

We also committed to protect the nature and surroundings by preventing the hazards and pollution (through proper housekeeping).

Complying with applicable laws, standards and regulations.

Continually improve our environment, occupational health and safety management systems by monitoring and analyzing the performance at regular intervals.

- **Quick Response**
- **Spotless Quality**
- **Well timed Execution**

Services

Retubing

- Surface condensers.
- Heat exchangers & condensers.
- Finfan cooler & oil Coolers.
- Evaporators in desalination plants.

Tube to Tube sheet

Argon welding on all kinds of metals(Titanium, Monel, Inconel, CuNi, Superduplex, Duplex, SS, CS).

Fabrication of Tanks, Vessels & Heat Exchangers of any volume.

Piping jobs of all metallurgy during turn around maintenance.

Heating works

- Pre weld heat treatment.
- Stress relieving.

Erection of equipment's & structure Deaerator Tanks and Boilers (HRSG).

Electrical and Instrumentation.

Distribution Agent

We are the direct distributors of Instrumentation valves manufactured by Met-Lok Valves and Fittings, Mumbai (EIL certified).

Supplies

Supply of manpower

Process Engineers

Lead Engineers

Construction Engineers (Mechanical & Civil)

QA/QC Engineers

Safety Officers

Millwright Technicians

Field Operators in Fertilizer plants

Mechanical Supervisors

Bundle puller operators

IBR Welders (6G)

Fabrication gangs

Welding gangs

Rigging gangs (heavy erection)

Supply of equipments

Heat Exchangers

Tube in Tube Exchangers

Oil coolers

Valves

Instrumentation Valves

Expanders

Nuts and Bolts

Our Clients
